TRANSFORM LEARNING SPACES

### NXT MOV™

Ergonomics and industrial design merge to re-imagine style and comfort in a groundbreaking, patented design that allows for continuous, independent micro-movements in the seat and back. Perfect for classes that require sitting for longer periods.

### Alphabet®

The chair you sit "in" not "on." Refined design that hugs the body and provides comfortable flex. Ideal for everyday classroom use.

### Discover®

Comfort with a balance of flex and support for a range of movement and seating positions. Ideal for tasks eating in active classrooms.

A guide to help you choose the right seat for your learning activity.

### Alphabet Rocker

The refined design of Alphabet Seating supports the many ways that students move with best-in-class strength and durability. Engineered for mobility, this gem of a chair provides movers of all sizes a chance to relax or burn off a little energy with the most satisfying sit around.

### Discover Rocker

The chair that reinvented student seating is now redefining movement. The Discover Rocker offers a harmonic blend of flexibility and support with just a touch of motion. Research shows that students benefit from flexible seating options that allow them to move

### MOV Stools

MOV is an active stool that promotes user movement and activity. Students love to move and MOV supports that natural urge in a fun and productive way. The attractive and simple design with a wider footprint makes MOV extremely stable, safe and fun to use.
