JOURNEY TO TRANSFORM LEARNING

TRANSFORM

LEARNING ENVIRONMENTS

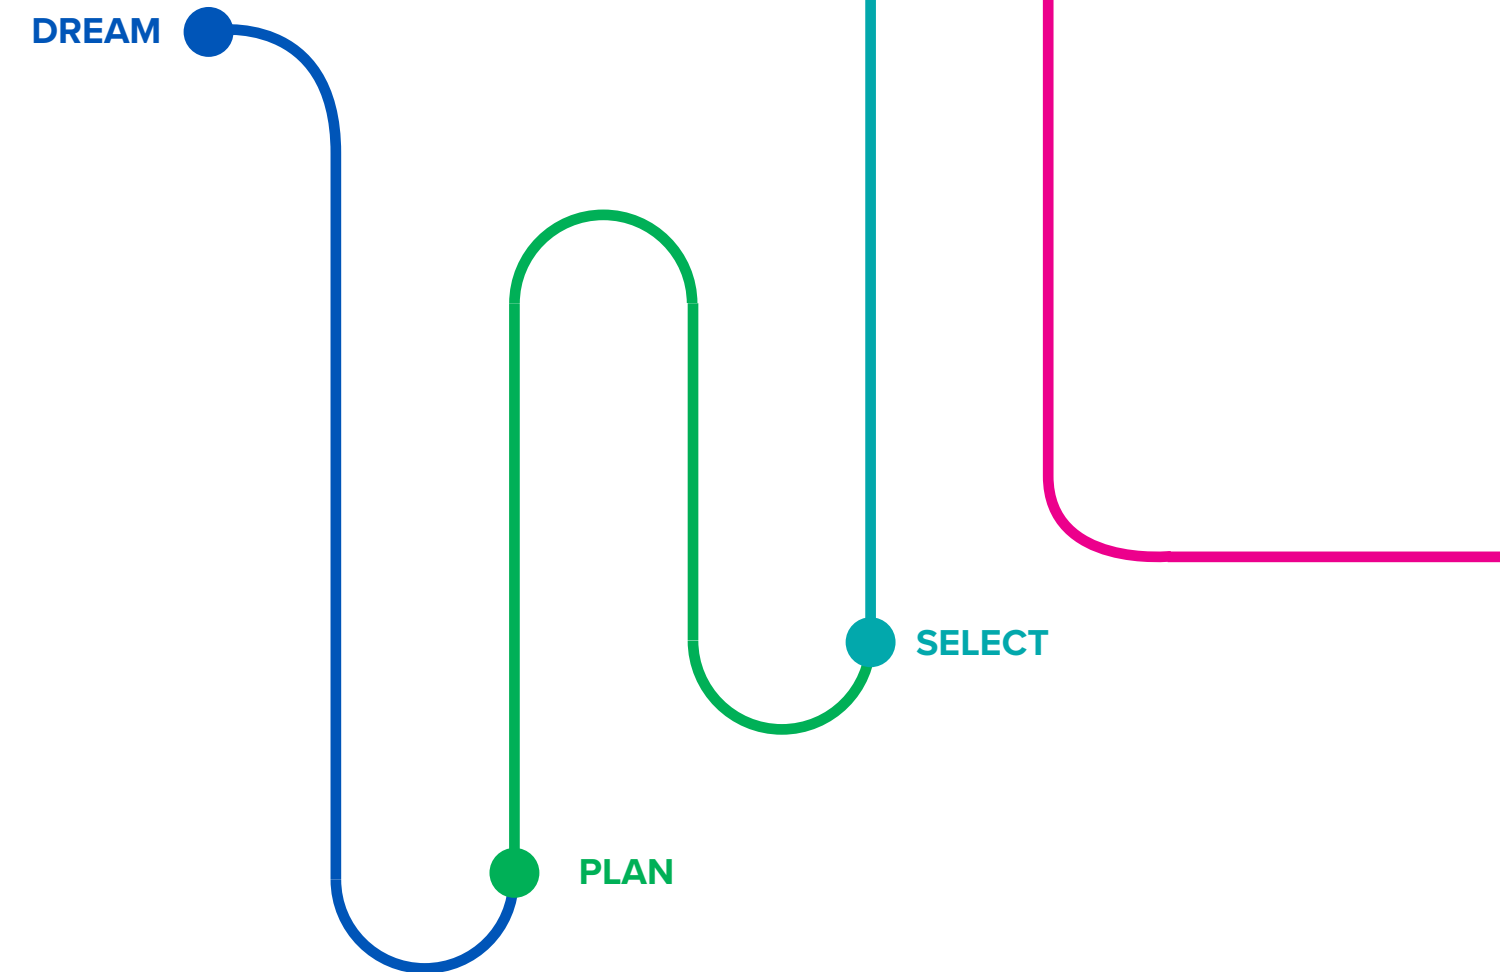

TRANSFORM LEARNING

You're embarking on a journey.

And Artcobell is there to help you along the way. This guide links you to resources designed to make each stage a little easier.

Come along with us!

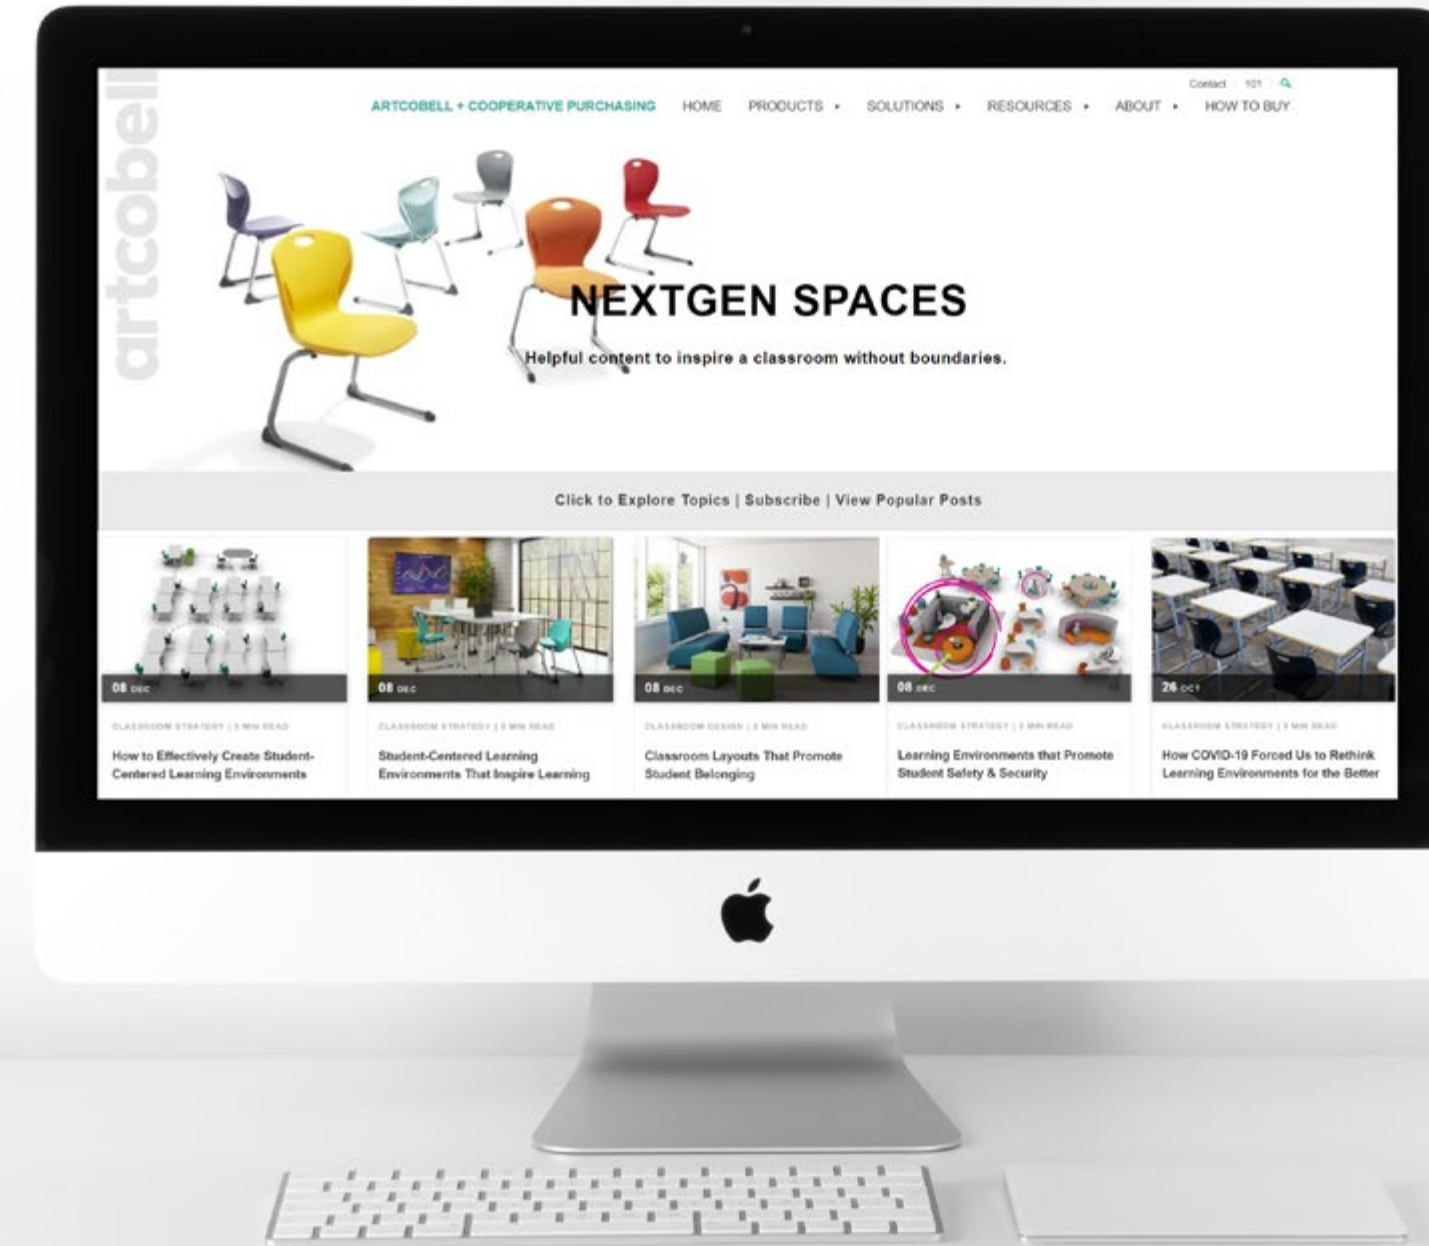

DREAM

Dream

Define your “why”

American author, Simon Sinek, encourages us to clearly define our “why” before making any transformation. This guiding principle or purpose provides us with the framework we need to shape our thinking and actions, allowing us to be more innovative, more successful, and inspire others.

THE FUTURE OF CLASSROOM LEARNING ENVIRONMENTS

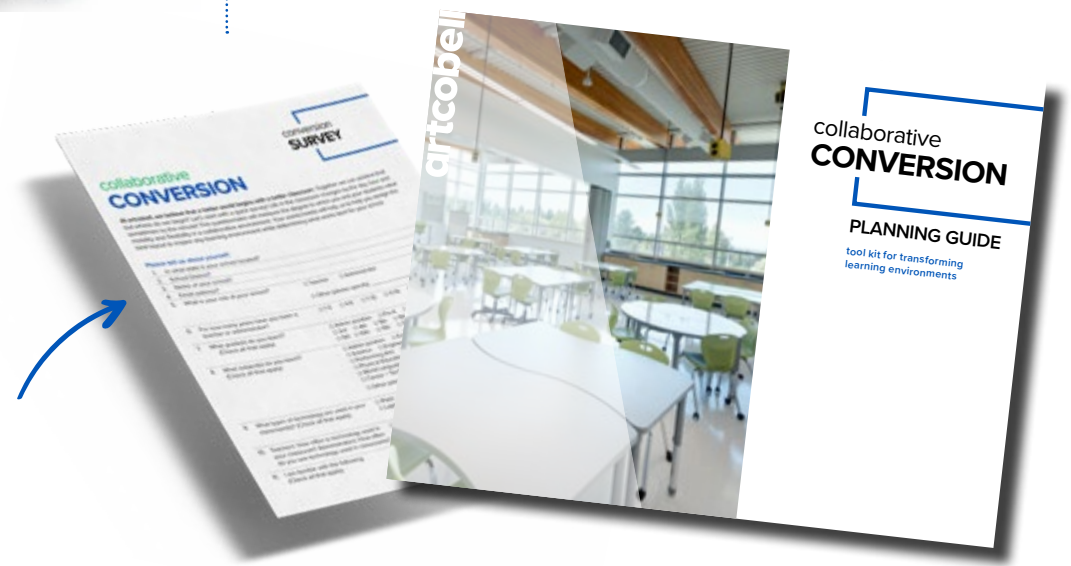

RECONFIGURE

Convert your **COLLABORATIVE BASED** learning environment where students can defend their ideas to an **INDIVIDUAL BASED** learning environment where they can receive direct instruction and breakout into small groups.

Download the collaborative conversion planning tool kit.

Select

You've wrestled with the why and the what of your transformation. How are you going to do it? Here's where you will identify the specific tools (furniture) to facilitate the change you want.

View configuration guides for our most popular Shape Tables + Desks.

Why is movement so important for student success?

Movement

With the floor height and standing workspaces, padded rockers and FLOT chairs give students the flexibility to sit on the floor, in a chair, or stand. Options are key to student ownership.

Choosing the right
activity table

Flexible and Agile

Large Shape Tables can do double-duty as
workspace and a teaching surface for small
groups, guided instruction, or individual
student conferences.

Flexible seating in schools
and why it's crucial for
classroom setup

Active

Active learning spaces require options. A blend of individual worksurfaces and configurable tables provides flexibility to support a variety of teaching and learning activities.

Collaborative

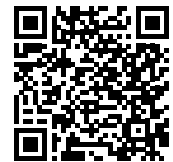

Collaborative learning environments are settings where learners work together to achieve a common goal. They can take various forms, such as face-to-face or online, synchronous or asynchronous, formal or informal, and structured or unstructured. Collaborative learning environments foster positive interdependence, individual accountability, social skills, and group processing among learners.

How a collaborative classroom enables deeper learning

Personalized

Personalized learning environments are settings that enable students to shape their own learning experiences and outcomes. Creating safe and secure spaces, where they can access resources, tools, and support their needs.

Classroom design layouts that promote student belonging

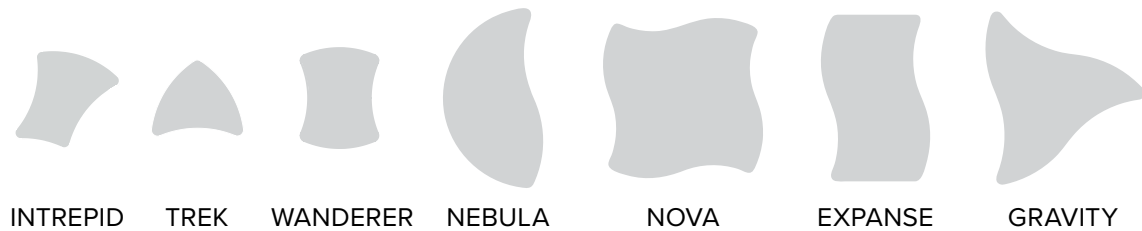

Multi-Functional

The multi-functional classroom showcases flexible seating, collaborative work surfaces, and mobile furniture that is all designed to work together. Use these to create environments that are safe and secure and provide students with voice and choice – now and in the future.

See how Shape Tables + NXT MOV Student Desks work together to create a learning environment like no other!

Train

New furniture. Now what?

After the boxes have been cleared away, how will your teachers and students use their new furniture? Transforming spaces also means transforming practices.

Professional learning for schools.
