

Mobile Cubbies

18.2" deep castered cubbie storage is available in 1, 2, and 4-column setups. Units are single-sided, open-faced with thermofused-melamine cladding. Units are standard with one adjustable interior shelf. Additional shelves are available.

Ends, Partitions and Shelves

1" thermofused laminate. All four exposed edges of the uprights are banded with 2mm matching PVC. All 1"-thick shelves are 12.4" wide by 16.6" depth. Adjustable shelves are banded on the front and back edges with 2mm PVC. Adjustable shelves are not grooved or notched, allowing them to be fully interchangeable and reversible in case of damage or vandalism. Each section is 36-1/4" center to center. Shelf pins are plastic, polycarbonate, twin-pin clips to hold the shelf in place and prevent shelf from sliding or slipping. Tops are 1"-thick, thermofused laminate. Backs are 1" thick designer white laminate TFL.

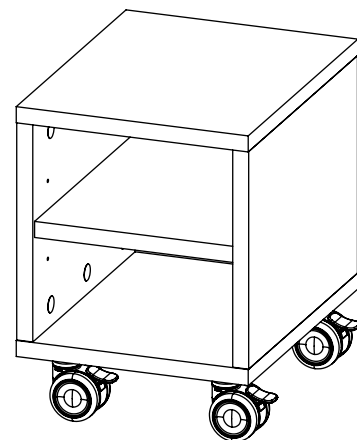

Parts are milled for continual assembly in long runs of shelving. All parts are cam lock fasteners.

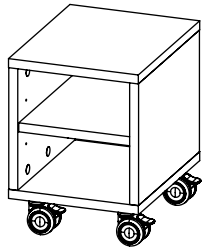

Casters

3" x 1.25" casters are fastened to the bottom of cabinet using 5/16" x 1" machine bolts at all 4 corners of the 4" square mounting plate. Metal to metal fastening at the caster to cabinet bottom for maximum strength. Weight capacity of caster is 240 lbs. each. Casters have ball bearing swivel, double roller bearings with split outer raceway to allow for easy mobility.

Compliance

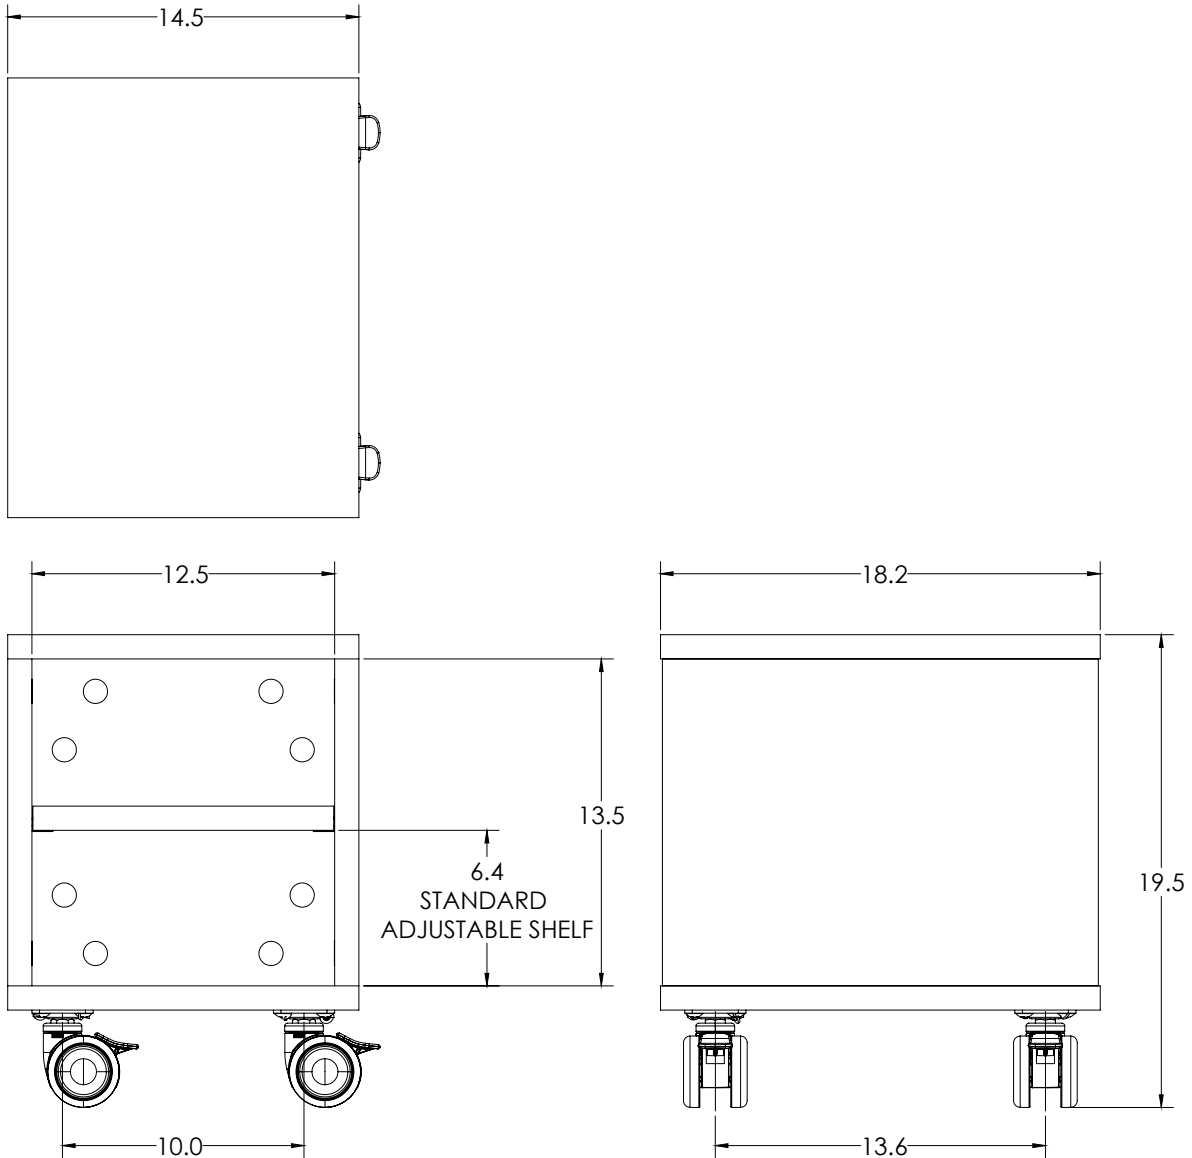

- > Tested to applicable ANSI/BIFMA Furniture Standards
- > MAS Certified Green, certificate #MAS1800444
