

# D800 Series | Sled Combo Desk

Discover D800 series sled combination desks are available with an 18" seat height and shell sizes of A+ and A. Combo comes standard with a bookrack.

## Shell

Shell is one-piece, injection-molded polypropylene with anti-static additive. Color is dispersed across the polypropylene for an even appearance. Enhanced waterfall front edge and biometric design allows comfortable seating. Fifteen integrated wrap around ribs are provided for shell strength. Both sides of shell are textured and constructed with a handle in the upper portion of the shell with smooth edges for ease when carrying. Shell is permanently attached to the frame with six non-load bearing steel rivets.

## MDF Core Work Surface

Work surface is constructed of 3/4" thick medium-density fiberboard (MDF) core surfaced with high-pressure pressure laminate (HPL) on the top surface and a resin impregnated phenolic paper backer sheet on the underside to balance construction and minimize warping. MDF has a clear edge sealed with a clear polyurethane sealant.

## Solid Plastic Work Surface (S)

Top is constructed of 5/8" thickness high-impact solid work surface comprised of wood flour and melamine resin which is molded into a homogeneous unit by heat and pressure. The solid plastic work surface shall include a molded in pencil groove.

## Frame

Frame constructed of 1 1/8" 12-gauge tubular steel running from front-to-rear of the seat with radius corners front and rear. Seat supports are die formed of 14-gauge steel punched for concealed seat rivets. Top support is a continuation of leg tubing. Frame allows for easy entry from either side of the seat. Frame is available in nickel chrome; completed after welding for improved aesthetics. Wire bookrack constructed of #4 steel wire is welded to the frame. D80A models are available and do not have a bookrack.

## Glides

Standard without glides.

## Compliance

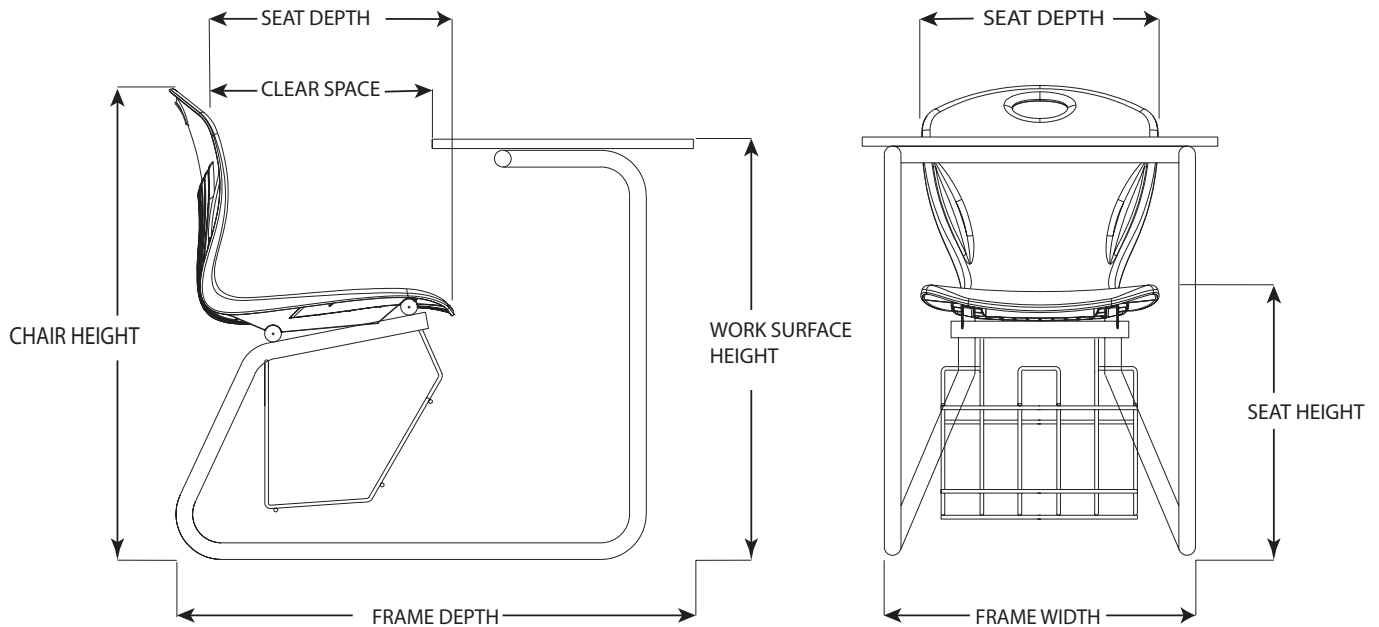

- > Indoor Advantage™ Gold. Indoor air quality certified to SCS-EC10.3-2014
- > Tested to applicable ANSI/BIFMA Furniture Standards

# D800 Series
